DELIVERY · IPHONE

Your own app, built for you

Ryan Rodriguez, Founder · Kin Studios, San Antonio · October 16, 2026 · one-time offer for the first 10 businesses

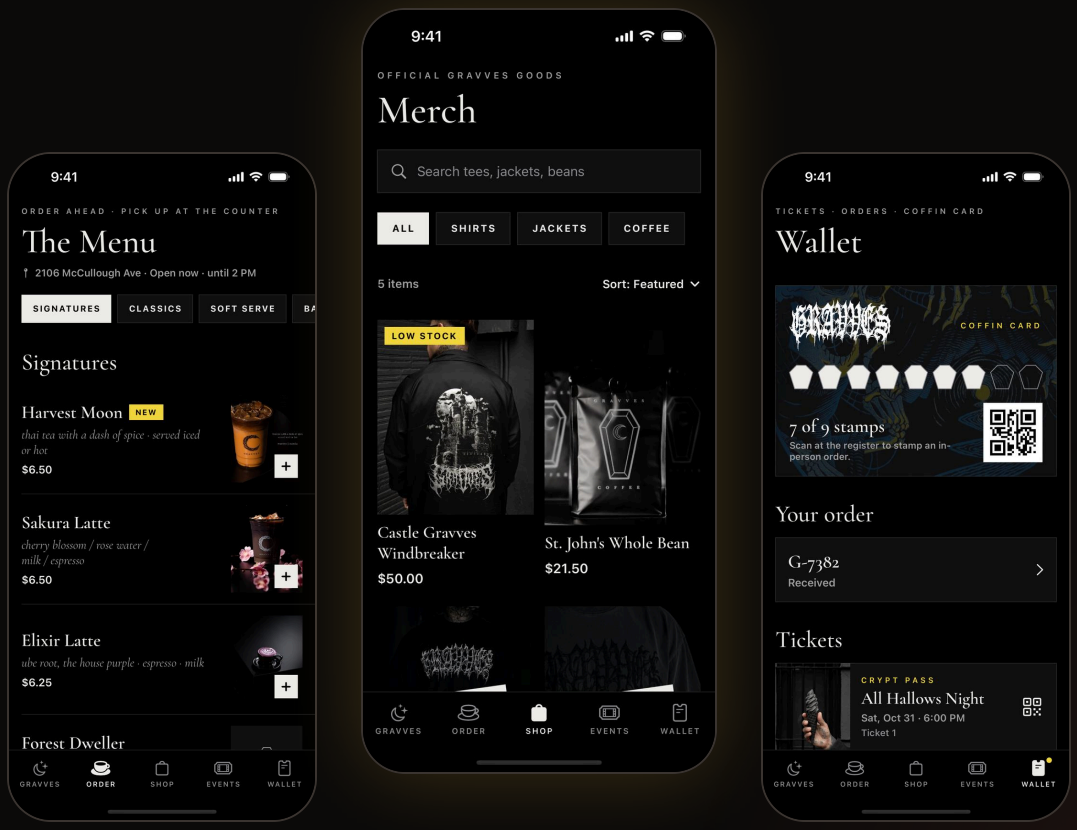

WHAT YOU'RE GETTING

What your app could look like

Kin apps are one phone app in the business's own look, with its own logo, photos and menu. The three screens on the cover are a Kin app built for a cafe, shown as an example. Yours would carry the Miches y Mas logo, your drinks and your prices.

- **Your menu, with real photos and prices.** Every michelada, size and add-on, shown the way you serve it. Send us the menu and a few photos and we build it.
- **Your hours and how to order.** Your evening hours, "we deliver" and your order method, on the home screen. Customers still DM or call to place the order.
- **A stamp card.** A stamp card on the phone toward a free drink. You set the reward.
- **Push notifications you send yourself.** Tonight's flavors, a new drop, the delivery window. You write it and send it.
- **A website that matches.** A Core website is included, and a custom website design on top of it is part of this offer.

- **Your menu in one place.** Customers see every drink and price without scrolling your reels.
- **A reason to come back.** A stamp card on the phone toward a free drink.
- **Your own channel.** Push notifications reach the people who installed your app, the moment you send them.
- **Fast to update.** Two edit requests a month cover menu changes, for the app or the website.

ABOUT THE DEMO

The screens shown are a Kin app built for a cafe, shown only to show the look and layout of a Kin app. They are not Miches y Mas screens, and no Miches y Mas menu, prices or photos are shown, because none are published. Some of these screens show features (ordering, merch, tickets) that are not part of Kin App. Kin App is a menu, a stamp card and push notifications; it does not take orders or payments in the app, so customers keep ordering by DM or phone as they do now. Ordering and payment in the app is Kin App Pro ($399/mo).

INVESTMENT

Your one-time offer

Kin App normally costs $1,500 to set up, then $199 a month. For the first 10 businesses I'm waiving the setup fee and adding a custom website design, free.

SETUP

~~$1,500~~ $0

Waived for this offer. A free custom website design is added: our Foundation build, normally $1,950.

MONTHLY

$199/mo

12 month minimum. After that it is month to month and you can cancel any time.

The monthly price covers

- Backend hosting and push notification delivery
- Every new iOS release: tested, fixed, rebuilt and resubmitted
- Bug fixes
- Two edit requests a month, for the app or the website
- A Core website, hosted by us

You pay directly

Apple Developer account, in Miches y Mas's name	**$99/yr**
Anything else on the monthly price	**$0**

The app is published on your own Apple Developer account, so it stays yours.

Year one, all in

Setup (normally $1,500)	**$0**
Kin App, 12 months × $199	**$2,388**
Apple Developer account	**$99**
Total, year one	**$2,487**

Without this offer, year one is $3,888 plus $99 for Apple, and the custom website design is $1,950 on top. This offer saves you $3,450.

THE DEAL

The terms

What you own

- The App Store listing, published on your own Apple Developer account
- Your brand, logo and photos
- Your customers' data. If you cancel after the first 12 months, we hand it over.

If you ever leave

- After the first 12 months, cancel any time
- No cancellation fee after month 12

This offer includes

- Setup fee waived ($1,500)
- A free custom website design (Foundation, $1,950 value)
- Kin App at $199 a month with a 12 month minimum
- Limited to the first 10 businesses

Good to know

- **One location.** Kin App is one location with a fixed feature set. Several locations, staff tools or a design built from scratch make it a Custom App, quoted after a call.
- **No payments in the app.** Kin App does not take orders or payments. Kin App Pro does, at $399 a month.
- **Demo data.** What you saw is a demo built from your public information. We confirm every price and hour with you before launch.

HOW WE GET TO LAUNCH

From yes to the App Store

1. **You say yes.** We send the agreement and set up your project.
2. **Apple account.** You apply for an Apple Developer account for Miches y Mas. It can take days to a few weeks, so it starts first.
3. **Your info.** You send the list below. This is what sets the pace.
4. **We build it.** Your menu or catalog, photos, hours, loyalty card and push notifications, in your brand.
5. **Test run.** You and a few regulars use it through Apple's TestFlight. We fix what you find.
6. **Launch.** Apple reviews it and it goes live under your name.

What we need from you

- Your logo files
- Your current menu or price list
- Your hours and phone number
- Your best photos
- Your loyalty reward, for example how many stamps for what
- An email for your Apple Developer account

Ready? Reply "YES".
